

PJLA Update Notification

Update Notification # 78

Update Notification Release Date: October 24, 2024

Form/Procedure/Policy- Change to PJLA Process for Updating Scopes of Accreditation

Attention PJLA Clients:

Effective immediately, any updates or changes to your scope will now be initiated by requesting a copy of your PJLA Internal Scope Supplement Sheet. This document will reflect your current scope and be editable as needed.

Please note that we will no longer provide blank template forms or accept obsolete template forms or scope changes submitted on client-specific internal forms.

This adjustment is designed to streamline our certificate issuance process, reduce potential errors, and expedite certificate development. We believe this new approach will enhance efficiency and ensure more accurate processing of your scope updates.

We appreciate your attention to this change and look forward to collaborating with you under this improved process.

Thank you for your continued support.
